

Camden Council

Town and Country Planning Act 1990

Planning Permission - Full householder: Granted

Applicant	Kate Mee
Application number	25-00171-HAPP
Application received	25 July 2025 13:07
Decision date	2 September 2025 00:00
Site address	PEMBROKE, ANTRIM ROAD, LONDON, NW3 4XN
Use/development	Planning permission is sought for the construction of a dormer window to the second floor/roof level on the south-east facade.

The application is granted due to the following reason(s):

The proposed dormer window along the side roof slope represents a proportionate and subordinate addition that would not cause harm to the character and setting of the host and neighbouring properties. The dormer is similar in size, scale, and location as the approved dormer on neighbouring Kingswood, Antrim Road. The proposed materials including lead dormer cheeks and casement window will complement the historic character of the host dwelling while allowing the dormer to remain legible as a modern addition.

Given the limited visibility of the dormer from public views, it is not considered to cause harm to the character of the wider Belsize Conservation Area. The Council has had special regard to the desirability of preserving the character and appearance of the Conservation Area, and the listed building, its setting, and its special interest.

Given the dormer's size and location, it is not considered to cause harm to the amenity of the neighbouring residents in terms of loss of daylight/sunlight, outlook,

or privacy. To help mitigate any privacy impacts, the dormer window is proposed to be fully obscure glazed.

The Belsize CAAC were consulted and provided a “no comment” response. No further comments or objections were received following statutory consultation. The planning history of the site has been taken into account when coming to this decision.

As such, the proposal is in general accordance with Policies A1, D1, and D2 of the Camden Local Plan 2017. The proposed development also accords with the policies of the London Plan 2021 and National Planning Policy Framework 2024.

Conditions:

1. The development hereby permitted must be begun not later than the end of three years from the date of this permission.

Reason: In order to comply with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended).

2. The development hereby permitted shall be carried out in accordance with the following approved plans:

07-E-101, 07-E-102, 07-E-103, 07-E-104, 07-E-200, 07-E-201, 07-P-100, 07-P-103, 07-P-104, 07-P-200, 07-P-201, Location Plan, Design and Access Statement (dated 25/07/2025)

Reason: For the avoidance of doubt and in the interest of proper planning.

3. All new external work shall be carried out in materials that resemble, as closely as possible, in colour and texture those of the existing building, unless otherwise specified in the approved application.

Reason: To safeguard the appearance of the premises and the character of the immediate area in accordance with the requirements of policies D1 and D2 of the London Borough of Camden Local Plan 2017.

Informatives:

1. Building Control: general all-purpose informative

Your proposals may be subject to control under the Building Regulations and/or the London Buildings Acts that cover aspects including fire and emergency escape, access and facilities for people with disabilities and sound insulation between dwellings. You are advised to consult the Council's Building Control Service, Camden Town Hall, Judd St, Kings Cross, London NW1 2QS (tel: 020-7974 6941).

2. Highways (all consents)

This approval does not authorise the use of the public highway. Any requirement

to use the public highway, such as for hoardings, temporary road closures and suspension of parking bays, will be subject to approval of relevant licence from the Council's Streetworks Authorisations & Compliance Team, 5 Pancras Square c/o Town Hall, Judd Street London WC1H 9JE (Tel. No 020 7974 4444). Licences and authorisations need to be sought in advance of proposed works. Where development is subject to a Construction Management Plan (through a requirement in a S106 agreement), no licence or authorisation will be granted until the Construction Management Plan is approved by the Council.

3. Environmental health (all consents)

All works should be conducted in accordance with the Camden Minimum Requirements - a copy is available on the Council's website (search for 'Camden Minimum Requirements' at www.camden.gov.uk) or contact the Council's Noise and Licensing Enforcement Team, 5 Pancras Square c/o Town Hall, Judd Street London WC1H 9JE (Tel. No. 020 7974 4444) Noise from demolition and construction works is subject to control under the Control of Pollution Act 1974. You must carry out any building works that can be heard at the boundary of the site only between 08.00 and 18.00 hours Monday to Friday and 08.00 to 13.00 on Saturday and not at all on Sundays and Public Holidays. You must secure the approval of the Council's Noise and Licensing Enforcement Team prior to undertaking such activities outside these hours."

4. Biodiversity Net Gain (BNG 1)

The effect of paragraph 13 of Schedule 7A to the Town and Country Planning Act 1990 is that planning permission granted for the development of land in England is deemed to have been granted subject to the condition ("the biodiversity gain condition") that development may not begin unless: (a) a Biodiversity Gain Plan has been submitted to the planning authority, and (b) the planning authority has approved the plan. The local planning authority (LPA) that would approve any Biodiversity Gain Plan (BGP) (if required) is London Borough of Camden. There are statutory exemptions and transitional arrangements which mean that the biodiversity gain condition does not always apply. These are summarised below. Based on the information available this permission will not require the approval of a BGP before development is begun because the planning permission is a Householder application. If the onsite habitat includes Irreplaceable Habitat (within the meaning of the Biodiversity Gain Requirements (Irreplaceable Habitat) Regulations 2024) there are additional requirements. The BGP must include, in addition to information about steps taken or to be taken to minimise any adverse effect of the development on the habitat, information on arrangements for compensation for any impact the development has on the biodiversity of the irreplaceable habitat. The LPA can only approve a BGP if satisfied the adverse effect on the irreplaceable habitat is minimised and appropriate arrangements have been made for the purpose of compensating for any impact which do not include the use of biodiversity credits. If planning permission is granted on an application made under section 73 of the Town and Country Planning Act 1990 and a BGP was approved in relation to the previous (parent) planning permission ("the earlier BGP") there are circumstances when the earlier BGP is regarded as approved for the purpose of discharging the biodiversity gain condition subject to which the section 73 planning permission is granted.

5. Biodiversity Net Gain (BNG 2)

+ Irreplaceable habitat: If the onsite habitat includes Irreplaceable Habitat (within the meaning of the Biodiversity Gain Requirements (Irreplaceable Habitat) Regulations 2024) there are additional requirements. In addition to information about minimising adverse impacts on the habitat, the BGP must include information on compensation for any impact on the biodiversity of the irreplaceable habitat. The LPA can only approve a BGP if satisfied that the impact on the irreplaceable habitat is minimised and appropriate arrangements have been made for compensating for any impact which do not include the use of biodiversity credits. ++ The effect of section 73(2D) of the Town and Country Planning Act 1990 If planning permission is granted under section 73, and a BGP was approved in relation to the previous planning permission ("the earlier BGP"), the earlier BGP may be regarded as approved for the purpose of discharging the biodiversity gain condition on this permission. It will be regarded as approved if the conditions attached (and so the permission granted) do not affect both the post-development value of the onsite habitat and any arrangements made to compensate irreplaceable habitat as specified in the earlier BGP. ++ Phased development In the case of phased development, the BGP will be required to be submitted to and approved by the LPA before development can begin (the overall plan), and before each phase of development can begin (phase plans). The modifications in respect of the biodiversity gain condition in phased development are set out in Part 2 of the Biodiversity Gain (Town and Country Planning) (Modifications and Amendments) (England) Regulations 2024.

This decision is based on the following approved plans:
