Dear Tony

Hope this helps. I have attached the section showing the external insulation and its relation to the brickwork. There should be no insulation or render protruding beyond the face of the brickwork.

I have also linked the approximate RAL colours to the existing houses and added the proposed colour for No. 49.

Barrington Ct.:

No.1: [RAL 5002](#) (Dark Blue); No.3: [RAL 7012](#) (Dark Grey); No.12: [RAL 8004](#) (Terracotta)

Lamble St:

No.41: [RAL 250 80 15](#) (Pale Blue); No.45: [RAL 130 70 40](#) (Mid Green); No.43: [RAL 7004](#) (Light Grey); No. 47: [RAL 095 90 30](#) (pale Yellow); No. 48: [RAL 095 80 60](#) (bright Yellow); No. 49: [RAL 240 70 30](#) (Mid Blue)

Hope this helps, Jane
